

Key Stage 1 (Ages 5 to 7)

Introductory Sheet

The first stage of a child's journey through compulsory education, and as such during this time there can be wide differences between the skills already in the command of children at this age. The questions in this pack have been kept as simple as possible to try and include children of all abilities in this stage as not to dishearten those children who have not advanced their reading and writing skills as much as others. However we know that at all times children in school groups will be accompanied by adults, and have ensured that these questions are also as easy to explain by accompanying adults as possible.

The pack is based on the subjects of the National Curriculum and even though not all subjects are covered (such as Religious Education, ICT, Music and Physical Education are not included), it ensures that the child's mind is pushed in all the correct academic directions.

We know that children of a young age may be easily distracted or may become bored of a plain question sheet. The education ethic of our path has always been centered around making learning fun, to try and help with this we have included our Tiger conservation ambassadors Troy and Blade throughout the quiz giving hints and keeping the children engaged with the animals within the park.

Many thanks
